### EMPLOYMENT

---

<b>Full Stack Developer</b>	<b>Web Artisans</b>	<b>Feb 2023 – Mar 2025</b>
-----------------------------	---------------------	----------------------------

---

Srinagar, India

- Boosted backend performance by ~30% through advanced MongoDB query optimization and API restructuring for high-traffic platforms.
- Resolved cross-region payout issues by integrating Stripe Connect, enabling seamless multi-currency transactions across 4+ countries.
- Improved teacher onboarding time by 20% through automated Zoom scheduling and recurring Stripe billing.
- Engineered GDPR-compliant cookie managers, ensuring legal compliance across 3+ production platforms.
- Built and maintained MERN stack applications with MongoDB, Express, React, and Node.js.

### PROJECTS

- 
- **Vivacity Studio** (<https://vivacity.studio/>) - Zoom-integrated online class platform with subscription billing & calendar-linked scheduling.
  - **Pop Nouvelle** (<https://popnouvelle.com/>) - GDPR-compliant e-commerce site with custom cookie consent system & product page enhancements.
  - **Ukreate** (<https://ukreate.com/>) - Influencer service marketplace. Built UI based on client designs and integrated PayPal for content-based service payments.
  - **AZ-Shop** (<https://azshop.onrender.com/>) - E-commerce Website with MERN Stack, Full-featured shopping cart with quantity management.
